

FRIENDS FOURTH SATURDAY GARDENING FORUM
WITH LIZ MORRISON

HOSTED BY FRIENDS OF WASHINGTON OAKS

Join the Friends Fourth Saturday Gardening Forum as Liz Morrison, a master in the garden, shares her tips and tricks for successful plants in your yard, on the patio and in your home. Liz has gained a wealth of first hand plant knowledge and "best practices" in her own garden and volunteering in area gardens, farms and parks. She will share this information during the Fourth Saturday at the Friends Garden Forums beginning at 10:30 am.

Each month she will select a time appropriate topic that you can put to immediate use. On Saturday, the 23rd of January, her topic will be "**Growing Plants Indoors**". You may have received a plant as a gift, brought some cold sensitive plants indoors, or your house plants may need some help, so this is a perfect opportunity to get all the information you need.

Future Forums will be:

February 27th	Pruning Do's and Don'ts
March 27th	Plantings for a Colorful Landscape
April 24th	Orchids in Bloom
May 22nd	Growing Roses in Florida
June 26th	Cactus for Your Home, Patio or Garden
September 25th	Bromeliads Everywhere
October 23rd	Plants for Cool Weather
November 27th	Camellias in Your Garden

Admission, which includes the regular Park Admission, is \$15 for individuals and \$25 for couples. All proceeds benefit the park for enhancement of current and new facilities.
