

Washington Oaks Gardens State Park is a photo-friendly state park. We have guidelines in place to preserve and protect our environmental resources and wildlife inhabitants.

This policy applies to still photography taken by hand-held cameras or devices and to video recordings, which are permitted only on mobile phones or similarly small recording devices.

Please contact us to request a permit for professional and commercial projects.

Commercial photography, videography and filming requests will be taken on a case-by-case basis and fees associated with commercial shoots will vary. Please contact us to request a Photography Permit Application Form.

The Park reserves the right to prohibit photography in any area at any time. Failure to acquire the required permits, failure to adhere to guidelines or staff direction may result in termination of the photography session.

Handheld cameras and camera phones are welcome in all public outdoor spaces, as well as inside our Visitor Center during normal operating hours.

Cameras must be self-contained and may not draw on Park power sources.

For safety and security reasons, drones are not permitted at anytime within, over or at the Park, including both Gardens and Beach side.

Please be thoughtful of your photography or video activities and respect the needs and privacy of other visitors.

Visitor and Park Staff traffic may not be blocked at any time.
